ANNUAL BUDGET - FISCAL YEAR 2015-2016 SUPPLEMENTAL BUDGET DETAIL DATA

The following data is supplied to provide additional information to the reader about the budget item amounts for fiscal year 2015-2016. The items are discussed in the same order as presented in the budget.

REVENUES

Revenues are grouped under two major categories; Operating Revenues and Non-Operating Revenue. The Operating Revenue consists of the moneys collected from the District's users for the purpose of operating and maintaining the system. This revenue consists of sewer service charges and fees associated with new permits. The Non-Operating Revenue consists of property taxes, connection fees from new users, capacity fees, and interest on existing funds and franchise fees. Each of the above two major categories is discussed below.

OPERATING REVENUES

Sewer Service Charges

The sewer service charges are funds collected from every sewer user in the District. These revenues are designated primarily for operations and maintenance of the existing facilities. The sewer service charges are adjusted periodically based on the expenses and the obligations of the District for operating its collection system and the costs of wastewater treatment and disposal. For fiscal year 2015-2016, the total sewer service charges budgeted for collection from the users of the District amount to \$1,022,700 which corresponds to a unit rate of \$5.00 per unit (one unit is defined as one hundred cubic feet which is equivalent to 748 gallons) and a \$125.00 fixed fee for operating costs.

Permit Fees

Permit fees are the fees associated with checking of plans and applications of new residential and non-residential users for connection to the existing facilities and

inspections to insure compliance with District regulations. It is anticipated that the District will receive \$5,000 in this category of fees in fiscal year 2015-2016.

The total anticipated operating revenues for the District in fiscal year 2015-2016 is \$1,027,700.

The District has budgeted \$200,000 for taxes this year which includes allocations from the successor agencies of the former Daly City and Brisbane Redevelopment Agencies.

Other Revenues

CONTRIBUTIONS FROM CONTINGENCY FUNDS

The District has accumulated contingency funds over previous years. These funds have been allocated for several specific purposes. The accumulated funds are invested in interest-bearing accounts until they are actually required for the specific purpose.
